EMERGENCY PROCUREMENT

Council,

Over the weekend, during the severe snowstorm our city experienced, DPW crew members were actively plowing to maintain safe road conditions. During this effort, the salt spreader truck unfortunately broke down. A diesel mechanic has since evaluated the vehicle and determined that the engine repairs required would exceed the current value of the truck. For this reason, I do not recommend pursuing repairs.

Additionally, the existing salt spreader is not compatible with our current Ford plow trucks, leaving the city without an operational salt truck. As you know, applying salt to our roads is essential during Michigan's winter conditions. Salted roads are critical for police, fire, and medical first responders to reach emergencies safely and promptly. They also support safe school transportation and provide safer travel for our residents.

Given the urgency of this situation, I believe this request qualifies under the emergency exception outlined in the city's purchasing policy, and I would like to move forward accordingly. With assistance from Steve and Bill, we were still able to secure three quotes for a compatible salt spreader.

After reviewing the quotes and considering equipment availability, I recommend that the city purchase a salt spreader from Hoekstra Equipment. They have offered the largest capacity spreader, which is a 5-yard spreader and can equip our Ford truck as early as tomorrow. The other vendors could only provide 4-yard spreaders and estimated installation times of 3-4 weeks.

Respectfully,

Justin Weber

City Manager
City of Bangor
